

## **The Worlds First and Only 3D Store System**

### **DigitalFactory**

[Open a Store Now](#)

### **How to Register**

#### **1. Enter your basic info**

Your contact information includes your name, address, and phone number. Personal information includes your date of birth to verify that you are at least 18 years of age.

#### **2. Enter a working email**

You must provide a working email address that you can check immediately, because Kraftwurx will send you an email with instructions to complete your registration to the email address you provide. We will also use this email address to notify you of other activities related to your account. Note: Kraftwurx has two types of accounts: Sellers and Bureaus accounts. Sellers accounts let you open a store and sell 3D models as products. Bureau accounts are for becoming part of our distributed manufacturing system. Sellers accounts can be self-activated. Bureau accounts must be approved before you will be granted access.

#### **3. Read terms of service**

You must accept the agreement to continue registering. Learn more about our Terms of Service and Privacy Policy .

#### **4. Make an ID and password**

You will use your user ID and password every time you sign in to the Kraftwurx site. You should select a secure password, that is not easy to breach. Using combinations of upper-case and lowercase letters as well as numbers and special characters is the safest method to ensure your account is never compromised.

#### **5. Check your email**

You will receive a registration email from us. Follow the instructions in the email to confirm your registration and complete the registration process.

You can register two different accounts. Some members find that having two accounts is a convenient way to organize a large number of items, or sell different kinds of items.
