

Kraftwurx is a community of artists, engineers, inventors, makers and creative people who love 3D printing. Create your account , make friends, share knowledge and ideas, organize events in your area and learn about 3D Printing and 3D printing Technology.

Our community is made to help educate you about 3D printing and turn your creations into products through the magic of 3D model printing.

If you have a printer, you can tap into our community and offer to 3D print products for community members and retail clients worldwide.

No printer? No problem, Kraftwurx has more than 300 3D printing facilities worldwide in our network ready to print your product in more than 50 3D printing materials.
